

## RSS feeds

You will find the RSS icon:  above the list of Refinements. Click the icon and a feed lists the search results displayed on your screen. If you have chosen to display 10 items of results per page of results, 10 items will be displayed in your feed. If you display 50 items per page of results, 50 items will be displayed.

You can choose to subscribe to the feed. If you do this, when new items which meet your search criteria are entered into the catalogue, this information is automatically downloaded to your computer and can be viewed in Internet Explorer and other programs.

Clicking on a title in the feed, links you back to the items details in 'Explore the British Library'.

**Note:** Registered readers using Library PCs in our Reading Rooms cannot use the RSS function. The version of Internet Explorer in combination with our Public Web Browser does not support it.
