This is a guide to some of the resources available within the British Library Business & IP Centre relevant to the Global Trade industry.

Inside you will find sources of information such as market research (statistics, trends, developments), key companies, trade magazines, newsletters, and Internet sources.

This guide will be useful to anyone starting a business within the global trade industry and also for those wanting to further their knowledge within this area.
Country Information Databases

Information on particular countries for Political, Economic, Social and Technological analysis. Provides information on political, policy and economic conditions to help you understand what is happening in a country now and how the country will look in the future. Useful for planning on overseas trade.

- **EIU.com**
  Includes quarterly **Country Reports** providing in-depth economic, political and business analysis and short-term market outlooks; annual **Country Profiles** analysing the political, economic and business environment; and daily up-to-the-minute economic, political and business news via the **Viewswire** service.

- **EIU Country Data**
  Analytical database providing global macroeconomic indicators and forecast values for over 100 countries and 40 regional aggregates including up to 280 economic indicators per country. Data is available from 1980 and includes forecasts up to 2030.

- **ISI Emerging Markets**
  Company, Industry and Economic information focusing on developing economies in Asia, Central and Eastern Europe, Middle East/North Africa, Sub-Saharan Africa and Latin America. Includes company reports and financial statements as well as 10,500 full-text news sources.
