### Austrian government documents

#### INTRODUCTION

What follows is a selection only of the main categories of material. Always check the catalogues - for some of the titles mentioned, we have incomplete holdings.

Some other British Library holdings of Austrian government materials are recorded in Explore the British Library [<http://explore.bl.uk/>]. However other material has to be traced through a range of manual records and indexes. If you do not find what you are looking for in the Catalogue, please contact the Enquiry Desk in the Social Sciences Reading Room, where expert staff will check further on your behalf.

For a complete listing of LSE holdings, use the Library catalogue [[www.lse.ac.uk/library/](http://www.lse.ac.uk/library/)]

For material held by Oxford University Library Services, please consult the OLIS catalogue [<http://solo.bodleian.ox.ac.uk/>]. Please contact the Official Papers Section [official.papers@bodleian.ox.ac.uk](mailto:official.papers@bodleian.ox.ac.uk) for further assistance.

## 1. PARLIAMENTARY PUBLICATIONS

### 1.1 Official records

Principal responsibility for federal legislation rests with the Nationalrat (National Council) which is composed of 183 democratically elected deputies. The Nationalrat works in collaboration with the Bundesrat, the body representing the Provinces (Länder). The activities of the legislative bodies are recorded in the Stenographische Protokolle [Official records] of the Nationalrat and Bundesrat. These comprise the deliberations and resolutions of the two Councils, together with the motions, debates, questions, reports, etc. Documents relating to the debates appear in supplementary volumes (Beilagen).

The Legal Information System of the Republic of Austria (Rechtsinformationssystem) is available free on the Internet [<http://www.ris.bka.gv.at/>]. It covers:

- Austrian federal law (some 98%).
- The *Bundesgesetzblatt*. This database contains all issues of the Federal Law Gazette published since 2004 at <http://www.ris.bka.gv.at/Bgbl-Auth/>.

The federal ministries and the more important administrative authorities issue official journals in which they publish regulations, decrees and announcements. These ministerial gazettes are currently taken by neither the BL nor the Institute of Advanced Legal Studies nor by The Library, London School of Economics and Political Science.

The judicial system in Austria comprises the ordinary administration of justice (ordentliche Gerichtsbarkeit) and the administration of justice by the courts of public law (Gerichtsbarkeit des öffentlichen Rechtes). The latter is the province of the Verwaltungsgerichtshof (Court of Administration) and the Verfassungsgerichtshof (Constitutional Court). The highest authority in private law in Austria is the Oberste Gerichtshof (Supreme Court of Justice). Its rulings are published annually.

## 9. STATISTICS

To 2000, all Austrian official statistical series were published as subseries of the *Beiträge zur österreichischen Statistik*. At the British Library, the *Beiträge* were shelved together as one series at shelf mark S.36/30 (Hft no.), although separate catalogue entries were created for the major subseries. To request delivery of parts of any subseries of the *Beiträge* from the British Library's holdings, you will need to find their volume numbers. To identify these, you will probably need to use a published index or serials union list such as the **Zeitschriftendatenbank** [<http://www.zeitschriftendatenbank.de/>]. This is a web-based union list of serials held in libraries in Germany, with very detailed catalogue records. A title index to the subseries of the *Beiträge* is also maintained by the Germanic Section of the British Library and can be consulted on readers' behalf.

From 2001, the annuals that were formerly issued as subseries of the *Beiträge* have been published as independent series and shelved separately. Consult Explore the British Library [<http://explore.bl.uk/>] for British Library holdings. To find out what is being produced, consult the Statistik Austria [<http://www.statistik.gv.at/>] publications catalogue.

The Library of the London School of Economics and Political Science on the other hand has always had the individual titles catalogued on its Library catalogue [<http://www.lse.ac.uk/library/>]. Refer to this for the holdings of each series. Most will be

found in the STATISTICS 436 collection (First floor) with earlier issues shelved at HISTORICAL STATISTICS 436 (Lower Ground Floor); some will also be found in the GOVT.PUBS 436 section (Lower Ground Floor).

- 2001 Search for the Volkszählung 2001 at [<http://www.statistik.gv.at/>] web site. The 2001 Population Census was the last 'traditional' census in which counting machines and questionnaires were used. As a register survey, the next population census will make use of statistical registers and administrative registers and databases to obtain most of the characteristics surveyed in censuses to date. In the future, characteristics such as language of habitual use, religion and profession will not be included in the scope of the population censuses, as there is zero or insufficient register information on these topics.
- 2011 Register-based census the information is taken directly from existing administrative registers and is available at:  
[http://www.statistik.gv.at/web\\_de/statistiken/bevoelkerung/volkszaehlungen\\_registerzaehlungen\\_abgestimmte\\_erwerbsstatistik/index.html](http://www.statistik.gv.at/web_de/statistiken/bevoelkerung/volkszaehlungen_registerzaehlungen_abgestimmte_erwerbsstatistik/index.html)
